Well as you all know, we are in the forefront of this COVID-19 outbreak. My entire time has been devoted to conference calls, looking for PPE, writing policies to protect work force and other calls.

As the board will see tonight, the hall has been the collection and distribution point for donated and government shipments.
The Ohio State Patrol is providing additional security at this location as well.

The county has activated the EOC in a modified format. Chief has been named Deputy EMA in the event Sarah becomes ill.

Chief has made some changes at building 2 that should be showing up in utility bills. Turned off front furnace.

With all of the conference calls and web meetings, Chief has been working remotely to lesson exposure. He still is available for emergency calls and checks in with crews regularly.

Reports are the surge is coming for our area after first of month. The local management team is hoping Marion does not follow the trend as projected from OSU and other data collectors.
